## Loving the hair you've got

Hey honey,

We understand that some days, we wake up loving the hair we've got. While on other days, it's a little bit of a struggle.

There are times when societal pressures make us feel like we should look like somebody else, and we are tempted to hide our unique parts instead of celebrating them.

**But you've got this!**

Researcher, professor, and shame-busting-wizard, Brene Bown, encourages people to embrace these parts of themselves...

**To show up and be seen.**

That is our hope for you today.

If you woke up this morning feeling even the teeniest bit not in love with yourself, we want you to march up to your mirror, look your gorgeous self in the eyes, and declare, "I am perfect just the way I am."

**Because you are.**

On the slightest chance you forgot that for even a second, we are here to remind you.

So throw out your self-doubt...

Put some Honey Envy in your hair...

**And get out there and shine!**

**Remember, you've got this...  
and we've got you!**
